LinkedIn Profile

MBA candidate with hands-on experience in **Data Analytics and Business Intelligence** through internship and academic projects. Proficient in **Python, SQL, Power BI, DAX, Microsoft Excel, Tableau, Pandas, and data visualization**, with experience in **data cleaning, data transformation, data analysis, statistical analysis, data modeling, dashboard development, KPI reporting, and business reporting**. Skilled in identifying trends, generating actionable business insights, and supporting **data-driven decision-making**.

Education

Master of Business Administration (Business Analytics) *2024–2026*
Savitribai Phule Pune University (SPPU) 77.4%

Bachelor of Pharmacy *2020–2023*
Dr. Babasaheb Ambedkar Technological University (DBATU) CGPA: 8.23

EXPERIENCE

Data Analytics Intern (Apprentice Trainee) *3 Months*
Test Yantra Software Solutions Pvt. Ltd., Pune January 2026 – March 2026

- Completed a 3-month Data Analytics internship with hands-on experience in **Python, SQL, Power BI, and Business Intelligence**.
- Performed **data cleaning, transformation, and analysis** to prepare datasets for reporting and decision-making.
- Developed interactive **Power BI dashboards and KPI reports** using DAX measures and data modeling.
- Created data visualizations to monitor business performance and identify trends.
- Collaborated with mentors on **real-world analytics workflows, reporting practices, and BI solutions**.
- **Technologies:** Python, SQL, Power BI, DAX, Microsoft Excel

Personal Projects

Customer Satisfaction & Service Quality Analysis Using Power BI
A Data Visualization Study of Customer Satisfaction and Service Quality in Quick Commerce Platform: A Study of Blinkit

- Developed an interactive **Power BI dashboard** to analyze customer satisfaction and service quality metrics.
- Performed **data cleaning, transformation, and data modeling** using Power Query and Microsoft Excel.
- Developed **DAX measures, KPI cards, slicers, filters, and drill-through reports** for business analysis.
- Generated actionable insights through **customer behavior, delivery performance, and trend analysis**.

E-Commerce Customer Churn & Lifetime Value Analytics
Analyzed customer data using Python, SQL, and Power BI to identify churn, customer segments, and revenue trends=

- Analyzed customer, order, and transaction data to identify **churn patterns, revenue trends, and high-value customers**.
- Cleaned and transformed data using **Python, Pandas, NumPy, and Excel**, handling missing values and duplicates.
- Developed **MySQL queries** using JOINs, subqueries, aggregations, and GROUP BY to calculate business KPIs.
- Performed **customer segmentation and trend analysis** to evaluate retention, purchase frequency, and spending behavior.
- Built **Power BI dashboards** to track customer KPIs and provide insights for retention and revenue optimization.

ERP Data Analysis
A Study on the Efficiency of Vridhi ERP Software in Registration and Payment Processes

- Collected and analyzed student feedback related to **ERP registration and payment workflows**.
- Cleaned and structured survey data using **Microsoft Excel**.
- Applied **Chi-Square analysis** to evaluate system efficiency and user satisfaction.
- Suggested data-driven improvements for **process optimization**.

Technical Skills

Programming Languages: Python, SQL
Python Libraries: Pandas, NumPy, Matplotlib, Seaborn
Data Analytics: Data Cleaning, Data Transformation, Data Analysis, ETL, Data Modeling, KPI Reporting, Business Intelligence
Data Visualization: Power BI, DAX, Tableau, Microsoft Excel, Data Visualization
Database: MySQL
Soft Skills: Analytical Thinking, Decision Making, Adaptability, Communication, Teamwork

Certificates

- Certificate of Completion of Data Analytics Project Using Python & Power BI *2026*
- Certification in AI and Employability Skills *2025*
